Low-Income Home Energy Assistance Program

LIHEAP May Be Able To Help You

What is LIHEAP?

The Low-Income Home Energy Assistance Program (LIHEAP) helps low-income families pay their heating bills. LIHEAP is a grant. You do not have to repay it.

To receive help...

- You don't have to be on public assistance
- You don't need to have an unpaid heating bill
- You can either rent or own your home

How does LIHEAP work?

LIHEAP offers both cash and crisis grants. Families may apply for:

Cash Grants

Cash grants help families pay their heating bills. The grant payment is sent directly to your utility company or fuel provider, and it will be credited on your bill. (In some cases, the check may be mailed to you directly.)

Crisis Grants

In addition to the LIHEAP cash program, households experiencing a heating crisis may be eligible for additional benefits through one of the two components of the LIHEAP crisis program.

Crisis Exception Component

Households without heat may qualify for additional help. To be considered "without heat:"

- The main heating source or second heating source (a source that is used to operate the main heating source or used if the main heating source is not working) has been completely shut-off;

OR

- A household has almost run out of its supply of main heating fuel (coal, fuel oil, kerosene, propane, wood, etc.).

Regular Crisis Component

Beginning with the opening of the Regular Crisis Program, additional money may be available if you have an emergency situation and are in jeopardy of losing your heat. Emergency situations include:

- Broken heating equipment or leaking lines that must be fixed or replaced
- Lack of fuel
- Termination of utility service
- Danger of being without fuel (less than a 15-day supply) or of having utility service terminated (received a notice that service will be shut off within the next 60 days)

If you have a heating emergency please call your local county assistance office.
