Name

Fluorescent Orange Requirements

All Small Game Seasons

A minimum of 250 square inches on head, chest and back, combined, visible 360 degrees.

AT ALL TIMES

Deer, Bear & Elk Firearms Seasons

A minimum of 250 square inches on head, chest and back combined, visible 360 degrees.

AT ALL TIMES

Wild Turkey Seasons (Fall)

Wildlife Management Unit 2B (Shotgun, Archery Area)

Hat containing a minimum of 100 square inches of solid fluorescent orange material, visible 360 degrees at all times when moving. May be removed at stationary calling location.

MOVING

STATIONARY

Wild Turkey Seasons (Fall)

All Other Wildlife Management Areas (Shotgun/Rifle Areas)

A minimum of 250 square inches on head, chest and back combined, visible 360 degrees at all times when moving. May be removed at stationary calling location, providing a minimum of 100 square inches of daylight fluorescent orange material is posted within 15 feet of the location and is visible 360 degrees.

MOVING

STATIONARY

Groundhog Hunting

A hat containing a minimum of 100 square inches of solid fluorescent orange, visible 360 degrees, must be worn at all times.

AT ALL TIMES

Blinds

Blinds can be used for big game (see turkey section for specifics for blinds while turkey hunting), however, a minimum of 100 square inches of fluorescent orange material (orange alert band will suffice) must be displayed within 15 feet of the blind and visible in a 360-degree arc during the firearms deer, bear and elk seasons. This is in addition to wearing orange while in the blind.

Archery Deer/Archery Bear

Season: (During Overlap with Fall Turkey Season)

When hunting in an area with a concurrent fall turkey season, a hat containing a minimum of 100 square inches of solid fluorescent orange must be worn when moving. The hat may be removed when archer is stationary or on stand.

MOVING

STATIONARY

(During the overlap with the October Muzzleloader/Special Antlerless Firearms Seasons in October)

When hunting during the early muzzleloader antlerless deer season/special antlerless firearms season, a minimum of 250 square inches on head, chest and back combined, visible 360 degrees at all times when moving. May be removed when archer is stationary in a tree or ground stand, providing 100 square inches of fluorescent orange material is posted within 15 feet of the location and is visible 360 degrees.

MOVING

STATIONARY

Early Muzzleloader Antlerless Deer Season in October

A minimum of 250 square inches must be worn on the head, chest and back, combined, visible 360 degrees.

AT ALL TIMES

None Required

No fluorescent orange is required when hunting waterfowl, doves, spring gobblers, crows and furbearers. None is required during the regular archery deer season, except during an overlap with turkey seasons and during the early muzzleloader deer season/special October antlerless firearms season. Hunters participating in the after-Christmas flintlock muzzleloader or archery deer seasons are not required to wear fluorescent orange (See Special Regulations Areas section in this Digest for additional information). None is required during the archery bear season, except during an overlap with turkey seasons. Hunters participating in the spring gobbler season are no longer required to wear a fluorescent orange hat while moving.

Camouflage Fluorescent Orange

Camouflage fluorescent orange may satisfy orange regulations when 250 square inches of safety material is required if the orange content is at least 250 square inches. When a hat containing 100 square inches of orange is specified, the cap must be solid fluorescent orange.

Note: The required amount of fluorescent orange for each season must be worn while moving from one hour prior to the start of legal hunting hours and for one hour past the closing of legal shooting hours. Coyote hunters must wear 250 square inches of daylight fluorescent orange during the regular firearms season for deer or any bear season from one hour before sunrise to one hour after sunset.
